TEMPLATE SOCIAL POSTS: First to Offer WATCHMAN FLX in your area
- Use this set of templated social posts to raise awareness for your institution if you are one of the first to offer the WATCHMAN FLX™ Left Atrial Appendage Closure (LAAC) Device in your area.

TEMPLATE SOCIAL POSTS: Milestone implant announcement
- These templated social posts should be used if your hospital would like to promote a milestone implant number of the WATCHMAN FLX device at your facility.

TEMPLATE SOCIAL POSTS: Disease Awareness Month/Week/Day
- Use this set of template social posts if you’d like to promote the availability of the WATCHMAN FLX device at your facility in conjunction with a national/international disease awareness month/week/day.

TEMPLATE SOCIAL POSTS: Device Awareness and Education
- Use these social media posts to educate your audience about the WATCHMAN FLX device and procedure. These posts can be used at any time throughout the year.
Template Social Posts: First to Offer WATCHMAN FLX in your area

Below are ideas for Tweets and Facebook posts that you can use to announce the first implant at your facility. Keep in mind:

- For added engagement, consider including a photo and a website link. Examples include a photo of the physician who performed the first implant or a photo of the patient, infographics, videos, etc. [Make sure to obtain appropriate permissions to publish the images.]
- You can create a shortened web link – also known as a bit.ly – by copying and pasting the web address of your desired page destination into https://bitly.com/. It will produce a shorter web link that you’re able to track.
- If you have a WATCHMAN FLX or LAAC webpage on your website, consider including a link to that page within all your social posts on the topic. You can also link to third-party, heart health/AFib websites or www.watchman.com to direct people to learn more.
- We recommend using the below tweets in sequence to engage the audience and tell the WATCHMAN FLX story.

Sample Tweets (and suggested sequencing)

Proud to offer the next-gen WATCHMAN FLX™ Left Atrial Appendage Closure Device – the only FDA-approved implant proven to reduce stroke risk in people w/AFib not caused by a heart valve problem, which is built on the most studied and implanted LAAC device in the world. [bit.ly link to facility press release if issued]

~6M Americans are affected by atrial fibrillation or AFib – an irregular heartbeat that feels like a quivering heart. Learn more about AFib https://bit.ly/2GO3i7C and contact us for treatment options now available

#DYK: Patients with AFib (irregular heartbeat) are 5x more likely to have a stroke; AFib-related strokes are more frequently fatal and disabling. Learn more https://bit.ly/2GO3i7C

Dr. [name] implanted our 1st WATCHMAN FLX™ Left Atrial Appendage Closure Device for the reduction of stroke risk associated with non-valvular atrial fibrillation. [bit.ly link to facility press release if issued]

IF YOU ARE FIRST IN REGION TO IMPLANT:
We’re first in [city/region/state] with the newest alternative to long-term blood thinning medications to reduce this risk of stroke in patients with non-valvular atrial fibrillation. Learn more about the device https://bit.ly/2GO3i7C

[Facility] is one of the first hospitals in [city/region/state] to implant the next-generation WATCHMAN FLX™ Left Atrial Appendage Closure Implant in patients with non-valvular atrial fibrillation. Learn more: [link to facility press release if issued]
An estimated six million Americans are affected by atrial fibrillation (AFib) – an irregular heartbeat that feels like a quivering heart. Patients with AFib have a five-fold increased risk of stroke due to blood clots that can form in an area of heart called the left atrial appendage and travel to the brain. [Facility] is the first hospital in [city/region/state] to offer the newest stroke risk reduction device for patients with non-valvular AF seeking an alternative to long-term blood thinning medications, designed to help treat more patients safely and effectively to ensure the best long-term outcomes. Learn more: https://bit.ly/2GO3i7C

Dr. [name] implanted our 1st WATCHMAN FLX™ Left Atrial Appendage Closure Implant for treatment of non-valvular atrial fibrillation. [bit.ly link to facility press release if issued] To learn more about this next-generation treatment alternative, visit https://bit.ly/2GO3i7C

Did you know in the U.S. someone has a stroke every 40 seconds and someone dies from a stroke every four minutes?

Shockingly, 80 percent of strokes are preventable, and further education could save thousands of lives every year. We are proud to be one of the first in our [city/region/state] to offer our patients the latest option for stroke risk reduction – the WATCHMAN FLX™ Left Atrial Appendage Closure Implant – the only FDA-approved device alternative to long-term blood thinning medication proven to reduce stroke risk in patients with non-valvular atrial fibrillation. Learn more: https://bit.ly/2GO3i7C
Template Social Posts: Milestone implant announcement

Below are ideas for Tweets and Facebook messages that you can use to promote the WATCHMAN FLX device at your facility in conjunction with an implant milestone for your institution. Keep in mind:

- For added engagement with your followers, could include a photo of the physician who performed the milestone implant or a photo of a patient you are profiling with any of the messages. [Make sure to obtain appropriate permissions to publish the images.]
- You can create a shortened web link – also known as a bit.ly – by copying and pasting the web address of your desired page destination into https://bitly.com/. It will produce a shorter web link that you’re able to track.
- If you have a WATCHMAN FLX or LAAC webpage on your website, consider including a link to that page within all your social posts on the topic. You can also link to third-party, heart health/AFib websites or www.watchman.com to direct people to learn more.
